WASHINGTON, DC – Congressman Robert C. "Bobby" Scott issued the following statement on the Federal raid of Mo Money Taxes' headquarters in Memphis, Tennessee:

"In February, I called on the federal government to immediately investigate Mo Money Taxes when I first learned of the numerous complaints from my constituents in Hampton Roads. I was assured by the Department of Justice that federal law enforcement agencies would be doing everything in their power to appropriately investigate this business to ensure that there would be no more victims. While it is generally the practice of federal law enforcement agencies not to publicly comment on ongoing investigations, the raid in Memphis of Mo Money Taxes' headquarters shows that a robust federal investigation is underway."
